

October 2, 2009

To whom it may concern,

We herewith confirm that the management system of

Company	: NGK Spark Plug Co., Ltd. Communication Media Components Group (with related sites, see below)
Address	: 2808 Iwasaki, Komaki-shi, Aichi 485-8510, Japan
Certification No.	: 09 100 6805
Applicable standard	: ISO 9001:2000, JIS Q 9001:2000
Scope	Komaki Factory (2808, Iwasaki, Komaki-shi, Aichi 485-0810): <i>Design, Manufacturing and Sales of Ceramic Substrate-Package Products</i> Iijima Ceramic Co., Ltd. (1115 Nanakubo, Iijima-machi, Kami-ina-gun, Nagano 399-3705): <i>Manufacturing of Ceramic Substrate-Package Products</i> Nakatsugawa Ceramic Co., Ltd. (1642-4 Nasubigawa, Nakatsugawa-shi, Gifu, 509-0241): <i>Manufacturing of Ceramic Substrate-Package Products</i> Kani Ceramic Co., Ltd. (884-1 Sakado, Kani-shi Gifu 509-0241): <i>Manufacturing of Ceramic Substrate-Package Products and Ceramic Heater Products</i>
Accreditation	: TGA
Certified since	: 1996/03/31 (yyyy/mm/dd)
Certificate validity	: 2009/10/31 (yyyy/mm/dd)
Due date	: 2009/09/15 (yyyy/mm/dd)
The end of the postponement	: 2010/04/30 (yyyy/mm/dd)

has been certified by TÜV Rheinland Japan and effectively implemented. To continue and extend its certification for another three (3) years, the annual audit shall be conducted before the due date according to certification rules.

However, due to its significant organization changes, an application for the postponement of the audit in 2009 was submitted to and approved in the certification board. The audit process including a certification decision now has been postponed for a maximum of six (6) months. After completing the audit with a positive certification decision, a new certificate will be issued from a completed date until 2012/10/31 in accordance with certification rules.

We trust that the organization will continue to effectively maintain a management system in accordance with the requirements of the applicable standards although the formal certificate is expiring on 2009/11/1.

Except for the above scopes and sites in the current certificate (for details, see a new certificate), the annual on-site audit was performed and is now under the certification review process. It is expected that the certification process will be completed successfully and its certification will be expanded for another three (3) years. A new certificate will be issued as soon as possible after the positive decision of the audit results.
